

SKILL SHARE

SKILL SHARE Bursary

Are you a volunteer or a paid member of staff for a voluntary or community group or organisation in East Sussex?

Does your group or organisation work with children, young people and families?

Do you need help towards the cost of attending training courses, events or even in gaining a qualification to help you in your work?

If so, the Skill Share Bursary may be able to help!

We know how the current financial climate is putting a squeeze on all organisations at the moment, particularly those in the voluntary and community sector.

We also realise that when belts are being tightened, it isn't always possible to spend money on the things that will help your staff and volunteers develop their knowledge and skills, like training, gaining qualifications or attending conferences and other events.

The brand new Skill Share Bursary has been launched to offer some financial help towards these costs so that groups and organisations can support the personal and professional development of their most important asset – their staff and volunteers.

For more information and an application form, just visit:
www.skill-share.net

Alternatively, please email: Organisational.Develo@eastsussex.gov.uk
